IDENTITY TO REMAIN A MYSTERY

Woman Who Lived for Three Years in Secret Room to Leave Jail

TELLS OF DOUBLE LIFE

Led by Lawyer Whose Death Occurred Sunday at Monticello, N. Y.—Met Attorney 15 Years Ago When Selling Books.

(ASSOCIATED PRESS TELEGRAM)
Monticello, N. Y., Dec. 23.—Melvin H. Couch, former district attorney of Sullivan county, was quietly buried this afternoon leaving behind him no written word to explain what will go down as the mystery of Monticello—his strange dual existence and associations with his slave-like companion, Adelaide Brance, who for three years was a virtual prisoner in his office.

From a cell in the jail where she was held on a technical charge, the woman saw the funeral procession pass on to the cemetery. She had expressed a wish to be at the graveside, but the lawyer's widow forbade it. Later this afternoon she was to be released.

"Then I am going to vanish," she said.

Couch died on the lounge in his office Sunday morning. His companion, gave the alarm and summoned a physician. Then for the first time it became known that for three years she had for the love of the man, existed in a tiny quarter of the office, partitioned off as a combination sleeping living room and kitchen. Couch for years had spent most of his time in his office. The Brance woman says she loved him devotedly, that he returned her love, and that their relations dated back 15 years when as a book agent she chanced to call on him.

The woman looks pale and haggard today. She was young and attractive looking ten years ago but the devotion to Couch and the secret alliance and its incident confinement have aged her terribly. She has refused to discuss the reason, saying that it behooves her to drop out of sight and not to cause the Couch family any more anxiety.

(ASSOCIATED PRESS TELEGRAM)
Monticello, N. Y., Dec. 23.—With the release from the Sullivan county jail probably today of Miss Adelaide Brance, the woman who for three years endured voluntary confinement for the sake of being the secret companion of Melvin H. Couch, the mystery of her identity may never be solved. She told her jailer last night that her only wish was to be permitted to leave Monticello quietly, to lessen the burden of anxiety for Mrs. Couch and her daughter.

Bit by bit Sheriff Frank L. Kane and George L. Cook, county prosecutor, have brought out the story of Miss Brance's life with Couch, whose death she announced in so dramatic a manner Sunday at the home of Dr. J. F. Curlette, brother-in-law of the dead attorney. Dr. Curlette notified the coroner and the sheriff, and these officials joined with him in an effort to keep the facts of the lawyer's double life from becoming the public gossip of the village.

It was due to the discovery of the presence of the woman by the widow who she was led to explore a room in his office her husband had always forbidden her to enter that the story became known.

Miss Brance told the prosecutor that many years ago she lived at Goshen, N. Y., but facts concerning her early life were withheld. After much questioning she told of her life in the little room opening off Couch's office, of how she never went out except at night and then only when she was sure no one would see her and how she lived on provisions brought to her by the lawyer and through it all was happy because she loved and was loved.

She said that she was 40 years old and had been a book agent but stopped there except to add that it was while trying to interest Couch in a book 15 years ago that their friendship began. They met at frequent intervals after that time, she said, until about three years ago when they concluded that secret meetings that lasted a day at first could be prolonged to a week, then weeks and finally to her taking up living quarters in the lawyer's office.

When confronted by the widow of the man with whom she had lived in secret for so many years, Miss Brance begged for forgiveness, crying piteously: "I loved him I loved him."

Her grief at Couch's death was genuine and the sheriff who at first harbored suspicions concerning her was finally forced to admit that there was no charge on which she could be held. Although her hair is streaked with gray, and her face pallid from her enforced confinement, her voice is well modulated and the quality of tone bespeaks evidence of education and culture.

President Vail of American Telephone and Telegraph Company Gives Up Western Union

President Vail of the American Telephone and Telegraph Company and Attorney General McReynolds are chiefly responsible for the agreement by which the telephone company will give up its stock in the Western Union Telegraph Company, which it controlled. Rather than stand a suit under the Sherman law, which would likely have been brought by the attorney general, Mr. Vail has consented to sell the stock of the telegraph company held by the telephone company.

Two Thousand Cases of Canned Vegetables are Seized and Condemned

(ASSOCIATED PRESS TELEGRAM)
Washington, Dec. 23.—Two thousand cases of assorted canned vegetables, condemned by the food inspectors of Hamilton, Ohio, on the allegation that they were filthy and decomposed, have been seized by the federal authorities in Chicago, where, according to an announcement of the department of agriculture today, an attempt to order some of the more presentable for sale for food purposes was planned.

The vegetables seized the department says apparently had been under water in the Ohio flood at Hamilton last March though it is not clear that their condition was caused by the waters. The department further states that the goods had been condemned and that the owners obtained permission to ship them to Chicago on the statement that they were to be sold as "fertilizing material."

Examination of the goods, the department says, indicate that the major portion of the goods were soaked and the cans bulged. By order of the department the detached cases will be kept in custody of the United States Marshal until the court decides whether they are adulterated in violation of the food and drugs act.

DECORATORS BUSY WITH XMAS TREE

Will Be Ready for Illumination on Christmas Eve Promptly at 7 O'clock—Free Coffee to Be Served.

Inclement weather Tuesday, interfered with the work of decorators who had expected to trim the municipal Christmas tree, but it was announced the work will be finished early Wednesday morning if not before.

The four-foot wooden star, outlined in lights, and the bibles and altar, or whatever the current was supposed to be, the stout hangings near the tree today.

A feature of the Christmas eve entertainment, the program for which was announced yesterday, was the serving of free coffee to the witnesses and participants in the program. The coffee will be served in the Christmas tree room of the courthouse.

The program starts at promptly 7 o'clock Wednesday night, when, as the clock hands swing to the Christmas Eve, will light the Holly Night. Mayor Sawyer will turn the switch which will make the huge tree and its twinkling stars and nearly four hundred incandescent lights.

KILLED WIFE GOT INSANITY VERDICT; SET FREE TODAY

(ASSOCIATED PRESS TELEGRAM)
Cincinnati, Dec. 23.—George B. Mundy, the local attorney who was acquitted last week on a murder charge which grew out of the killing of his wife last summer, was set free here today when the court decided that he was now sane. The jury that acquitted Mundy at the time stated that it was their belief that Mundy was insane when he fired the shots that resulted in his wife's death.

GOV. COX TO HAVE AN OLD-FASHIONED CHRISTMAS DINNER

(ASSOCIATED PRESS TELEGRAM)
Columbus, O., Dec. 23.—An old-fashioned democratic Christmas turkey dinner "That's all."

This is what Gov. James M. Cox said he will sit down to Christmas day when asked what he would have to eat on that festive occasion.

The Christmas dinner at the Governor's residence will be wholly informal. The Governor, aged mother and his daughter Helen and the other members of the household including the retinue of servants will be the only persons to participate in the good things which will grace the chief executive table.

Scores of Christmas presents are taken to the Governor's residence and offered at the state house today by mail carriers, messengers and express and parcel post carriers. There were also dozens of post cards expressing Christmas greetings in the Governor's mail.

Consistent among the packages that reached the Governor's desk in the state house today was a box of chewing gum from Senator C. D. Frydholm of Cleveland. The Governor chewed gum.

BILL WILL SOON BE NEW LAW

Senate Now Considering the Long Delayed Conference Report

VOTE THIS AFTERNOON

Will Be Taken in the Senate on Currency Bill and President Wilson Expects to Sign Some Time This Evening.

(ASSOCIATED PRESS TELEGRAM)
Washington, Dec. 23.—The conference report on the administration currency bill was approved by the senate today by a vote of 43 to 25. As the house already had approved it there remained only the signature of the vice president and the speaker to complete the measure for President Wilson's signature.

Three Republicans and Senator Poindexter, Progressive, joined the Democrats voting for the bill in its final form.

The Republicans were Senators Jones, Norris and Weeks. The passage of the report was greeted with little demonstration.

With the president's signature at 6 o'clock tonight, the hour set by White House officials, the bill becomes law although it actually will not become effective until the new system has been organized by a committee of government officials designated by the measure. The comptroller of the currency is one of those. That office is now vacant and one of the first steps in putting the new system into force will be the appointment of a comptroller. President Wilson is expected to select a man soon.

A bill for the guarantee of bank deposits, a feature eliminated from the bill was introduced by Senator Williams and it was immediately sent to the banking committee where it will lay until after the holidays.

(ASSOCIATED PRESS TELEGRAM)
Washington, Dec. 23.—The currency bill entered the last stage of its passage when the senate met at 10 o'clock this morning to take up the conference report which already had been delayed twenty-four hours by difficulties in the house. Backed by the overwhelming Democratic majority of the house the bill came to the senate for what leaders confidently expected was the last time. It remained for the senate to act upon the compromises which had been effected between the managers of the two houses.

The Democratic majority in the senate seemed to be working smoothly and the leaders expected to see the bill finally engrossed and on its way to the White House for President Wilson's signature before night. All the changes made by the conference managers were agreeable to the president and it was understood in official circles that he would accompany his signature with some sort of a statement to the country.

When the senate debate began under the agreement to vote by 2.30 this afternoon, Senator Bristow, one of the Republicans of the banking committee who had been denied admittance to the deliberations of the Democratic conferees led off with an attack, saying he proposed to express his opinions where they would get into the permanent record. The agreement placing the secretary of the treasury secretary of agriculture and comptroller of the currency on the committee to organize the new system he declared was a move to bring the whole system under political control.

Arrangements for debate provided that Senators Fustow, Nelson and other Republicans who oppose the conference agreement would have about three hours to talk.

Senator Bristow declared he believed Senator Owen had expended his time in a conference or fear he would not be able to do so.

TWO GOLD PENS WILL BE USED BY PRESIDENT

(ASSOCIATED PRESS TELEGRAM)
Washington, Dec. 23.—Six o'clock tonight was a busy one for White House officials. President Wilson was signing the currency bill. The president plans to sign for Christmas Miss Owen's three weeks vacation. Senator Owen and Representative Glass, co-authors of the bill were invited to attend the ceremony. The President will sign the bill with two gold pens and present one to Senator Owen and the other to Representative Glass. The President held a cabinet session today and exchanged Christmas gifts with his family.

A Real Photograph of Dowager Queen Alexandra Compared With One of the Official Pictures

London, Dec. 23.—The Queen Alexandra fiction of youthful appearance has been torn to shreds by a bold London photographer without respect for royalty. He dared to take a picture of Queen Alexandra when she did not pose for it, and he published it without taking out the lines and age of the face.

The photographer caught her at a recent exhibition, and he took a snapshot without asking permission. The result is here seen.

On the other hand, England and America have just been flooded with so-called "birthday photographs" of the dowager queen. They show her to be a woman of few years, at least under forty, despite the fact she is long past the meridian of life.

For forty years the fiction has been sedulously built up in Great Britain and throughout the world that the queen looked very young. Every photograph permitted has shown her to be a young woman. Those who stopped to realize her age wondered. But the comparison here made between the photograph and the painting is plain enough to show some of the truth.

Anniversary of the Birth of President Huerta Being Celebrated in Mexico Today

(ASSOCIATED PRESS TELEGRAM)
Mexico City, Dec. 23.—President Huerta today revived the old custom of celebrating at the national palace with great formality the anniversary of the birth of the chief executive. He was born on December 21, 1874. These birthday celebrations were annual affairs by the regime of General Porfirio Diaz. Before daylight this morning military bands from the regiments which have their headquarters in the federal capital marched in and down a part of the palace and around the president.

The first of the birthday celebrations was a reception of the diplomatic corps at the national palace. The diplomatic corps at all times is represented by the foreign representatives who are present with the exception of Nelson O'Shaughnessy.

INVESTIGATION OF THE KILLING OF DE VILLIERS

(ASSOCIATED PRESS TELEGRAM)
Los Angeles, Cal., Dec. 23.—The police department today began an investigation of the killing of John De Villiers, a Texas ranchman, who was shot here Sunday night by a Texas ranchman. The investigation is being conducted by the police department.

PROBLEM CONFRONTS OFFICIALS

Agree That Some Means Should be Devised for Care of Prisoners

VIEWS ON THE SUBJECT

Given to Advocate Representative by Number of Those Interested—Commissioners to Work Out Infirmity Farm Improvements.

Agitation of the suggestion of Probate Judge Robins Hunter calling attention to Licking county's need of a workhouse and detention home, has brought forth many expressions from county officials and city police authorities familiar with the needs of the city and county in this respect, especially in view of the report of the county board of visitors, made public Monday.

From sources come expressions of doubt as to the practicability of a workhouse in the county, despite the fact that all appear to recognize the need of some means of solving the criminal housing problem.

County Sheriff Frank Slabaugh, in an interview, Tuesday declared it his opinion that Licking county would find a workhouse too much of an expense to serve the purpose expediently. While favoring the workhouse idea, the sheriff believes this county would have experience similar to that of Muskingum and Franklin counties, where, it is said, the workhouse is not even a self-sustaining institution.

Said he Tuesday: "A building erected at nominal cost would be built for about \$10,000. It would require a superintendent and matron, at about \$1800 a year, \$1200 for the superintendent and \$600 for the matron. That is the least possible figure at which good service could be obtained. Besides, the institution would have to have a foreman, and a competent man for such a position scarcely could be hired for less than \$900."

"It is doubtful if this county would have more than an average of fifty prisoners in the workhouse for longer terms than an average of six months."

"Such prisoners, of course, could not include those awaiting grand jury action or awaiting transportation to the penitentiary to begin sentences."

"Don't misunderstand. I'm not opposed to the workhouse idea here. It's simply that I do not see how it could be made profitable to the county or even self-sustaining."

In answer to the statement of Sheriff Slabaugh, Judge Hunter explains that his suggestion of a workhouse did not anticipate the construction of a building specially for that purpose.

Said he: "I would not consider the expenditure of any big sum in constructing a building. The number of prisoners the county would have in such an institution, I think, would be a comparatively few. They could be accommodated in an ordinary, substantial brick dwelling properly equipped for their care and detention. I should say, roughly, \$1500 or \$2000 would be a sufficient fund to serve the purpose."

Then it would be possible for the courts to save these regular, petty offenders good stiff sentences to a place where they would be put to work, and made to realize that their earnings were going somewhere and that they were not receiving the benefits of them. I believe that under such a system, if the county even would take a long term case on some suitable building for the purpose, in course of a year and a half, or possibly two years, the patronage of the institution would fall off so that its maintenance would be unnecessary.

We would be rid of these offenders to quite an extent, although there would be a few probably, who would remain in the institution, but not enough to warrant establishment of any extensive workhouse system.

In connection with such an institution the county could maintain its detention home for juvenile offenders and delinquents whose offenses were not regarded as being serious enough to warrant their commitment to the penitentiary or Delaware homes.

County commissioners were interested in the report of the county board of visitors made public Monday. It was accepted by members of the board.

SOL MEYER SELLS CLUB TO M'GILL

DENVER MAGNATE PAYS \$175,000 FOR INDIANAPOLIS CLUB TRANSFER IS MADE

Chicago, Dec. 22.—James C. McGill, owner of the Denver club, three times champion of the Western League, has purchased the Indianapolis franchise in the American Association. The deal, which has been pending for several months, was consummated yesterday when McGill through Jack Hendricks, the Denver manager, paid \$175,000 purchase price to Sol Meyer, former master of the Indians. In addition, the new management comes into possession of the Springfield, O., club of the Central League, a holding of the Indianapolis club.

The details of the transaction, which involves what is reputed to be the highest price ever paid for a minor league franchise, were made public tonight. Mr. McGill who is a nephew of the late "Pittsburg Phil" of turf fame, interested another uncle, William Smith of New York, in the venture and will sit in as active head of the Indianapolis club. Jack Hendricks will take over the leadership of the team, and expects to leave Chicago within a few days to make his home in the Hoosier capital.

President McGill has let it be known that he will continue to operate the Denver club, and a new manager will probably be appointed there to succeed Hendricks. McGill who is now in Venice, Cal., expects to hasten to Indianapolis immediately after the holidays to meet Hendricks, and the last payment on the franchise will be made within 30 days.

During his baseball career at Denver, President McGill has enjoyed phenomenal success. Starting as a magnate in the Mountain City in 1910, with Hendricks skipper of the team, McGill saw his athletes struggle into second place in the circuit, presided over by Tip O'Neill. Championship honors went to the Grizzlies in 1911, 1912 and 1913, with the team winning more than 100 games each season.

According to advice none of the stars who pastimed in Denver active last season will be taken to Indianapolis, it being McGill's purpose to leave the belted crew intact for the 1914 flag race.

Prior to taking command of the Grizzlies, Manager Hendricks piloted the Springfield team which was tossed

in as a part of the Indianapolis deal. During the seasons of 1903, 1906 and 1907 Jack met with great success. Though he was forced to develop a winning combination. Fourth place went to his brightly young men in 1904. The following season they finished second, and in 1907 the club wound up in the championship berth.

There is a possibility that the Springfield holdings will be shifted to South Bend, as the fans in that city are clamoring for a position in the Central circuit. But the fate of the Ohio club team will not be definitely determined until President McGill arrives here from the East.

Mike Kelley, who handled the Indians last season for Sol Meyer, will continue to manage the Indianapolis club next season and in 1915, but the new management has settled with him in full and taken over what interest he had in the club. Several days ago word came out of the Mount City that Mr. Meyer Higgins was after Kelley's services.

The new owners of the Indians realize that they must start from the bottom to build up the team, which was left behind by Kelley and Meyer. Indianapolis boasts one of the finest playing fields in the country, one that would be a credit to several major league clubs, but several years have passed since the team played a stellar part to pennant milling.

Croup and Cough Remedy.

Croup is a terrible disease, it attacks children so suddenly they are very apt to choke unless given the proper remedy at once. There is nothing better in the world than Dr. King's New Discovery. Lewis Chamberlain of Manchester, Ohio writes about his children: "Sometimes in severe attacks we were afraid they would die, but since we proved that a certain remedy Dr. King's New Discovery is we have no fear. We rely on it for croup, coughs and colds." So can you, for and \$1.00. A bottle should be in every home. At Frank D. Hall's.

Today in Pugilistic Annals

1889—Jem Smith and Frank P. Slavin fought a draw in a battle for the championship of England and \$2000 a side. Smith was the champion of England, and a couple of years before he fought a draw with the great Jake Kilrain. "Paddy" Slavin later defeated Smith. Slavin was an Australian, and at times was making a noise like a coming champion, while in other bouts he boxed like an amateur. Peter Jackson gave him a thorough drubbing before the National Sporting Club of London, and after that he was no longer considered as possible championship material.

1888—Peter Jackson defeated Joe McAuliffe in 24 rounds at San Francisco.

1898—Tommy Ryan knocked out Dick O'Brien in the fourteenth round at Hartford.

MEAT CAUSE OF KIDNEY TROUBLE

Take a glass of Salts if your Back Hurts or Bladder bothers—Meat forms uric acid.

If you must have flesh on at every day eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and clogged, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, sour stomach, sour, tongue coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste set four ounces of Jad Salts from any pharmacy here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

"EASY" SAYS REP. LEWIS ABOUT THE GOV'T. OWNERSHIP

(ASSOCIATED PRESS TELEGRAM) Washington, Dec. 22.—Government ownership of the nations telephone lines would cost less than \$500,000,000 and would present no greater difficulties of financing than did the Panama canal, Rep. Lewis of Maryland, told the house in an exhaustive analysis of his proposal to have those lines operated by the postoffice department.

Rep. Lewis, who took a leading part in the establishment of the parcel post and who has made a study with postoffice officials of government ownership of the electrical lines of communication does not propose to have the government take over the telephone companies. His plan is to have the government first of the telephone network of the country, operate some of the telephone lines as telegraph as is now possible and modern mechanical conditions and have the government system compete with the private telegraph companies at the outset in the same proportion as the parcel post now competes with the express companies.

Congratulations to Connie Mack, 51 Today and Still Going Strong

Gentlemen, let us drink today to many happy returns for the greatest, wisest and ablest of all the generals of the diamond, the modest hero of five major league pennants and three world's championships—I refer, of course, to Connie McGillicuddy, better known as Connie Mack.

The manager of managers, the conqueror of the great McGraw and the mighty Chance on three hard-fought fields, the immortal mahout of the White Elephants, the able pilot of the world's champion Athletics, the most distinguished citizen of the City of Brotherly Love, was born fifty-one years ago today, Dec. 23, 1862, in East Brookfield, Mass. His father was Michael McGillicuddy, a native of the Old Sod, glory be!

Brookfield high school was Connie's alma mater. Soon after he had received his diploma the elder McGillicuddy died, and it was up to Connie to get busy and contribute to the support of his mother and the younger children. Anybody who knows the man will not doubt for a minute that the youth made good on the assignment. No man ever loved his mother more than Connie Mack, and no mother ever entertained a greater affection nor manifested more pride in her son—which is saying all that can be said on that subject. Those who have seen Connie Mack enter the ball field with his mother clinging to his arm, and have observed in the kindly, beautiful face of the aged woman that expression of exultation and honest pride in being the mother of such a man, and have noted the answering beam in the eyes of the son, have witnessed a picture of maternal and filial devotion that will cling in their memory always. Once, after he had come under the spell of Robert Ingersoll's oratory, Mark Twain wrote of Col. "Bob": "I shall see him always—the most beautiful human creature that ever lived." Ingersoll was far from handsome and, I suppose, Connie Mack is about the homeliest man in the big leagues; yet, seeing him with his mother, one was almost tempted to renege Mark Twain's extravagant language about the orator.

Connie Mack's first job was in a Brookfield shoe factory, and he remained there until 1884, when he played professional ball with Meriden, Conn. In 1885 and 1886 he was with Hartford, where his work as a backstop and hard hitter attracted the attention of the scouts. He entered the big show with Washington in 1887. In 1890 he was with Buffalo, and the following six seasons with the Pirates, where he made his managerial debut. After several years in Milwaukee, where his career as a player ended in 1896, he took charge of the Athletics, and in 1902 won his first American league pennant.

NOSE AND HEAD STOPPED UP FROM COLD OR CATARRH, OPEN AT ONCE

My Cleansing, Healing Balm Instantly
by (Clears Nose, Head and Throat)
—Hops Nasty Catarrhal Dis-
charges. Balm Headache Goes.

Try "Ely's Cream Balm."
Get a small bottle anyway, just to
try it—Apply a little in the nostrils
and instantly your clogged nose and
stopped-up air passages of the head
will open; you will breathe freely;
dullness and headache disappear. By
morning the catarrh, cold-in-head
or catarrhal sore throat will be gone.

Had such misery now? Get the
small bottle of "Ely's Cream Balm"
at any drug store. This sweet, fra-

grant balm dissolves by the heat of
the nostrils; penetrates and heals
the inflamed, swollen membrane
which lines the nose, head and
throat; clears the air passages;
stops nasty discharges and a feeling
of cleansing, soothing relief comes
immediately.

Don't lay awake tonight strug-
gling for breath, with head stuffed;
nostrils closed, hawking and blow-
ing. Catarrh or a cold, with its
running nose, foul mucous droppings
into the throat, and raw dryness is
distressing but truly needless.

Put your faith—just once—in
"Ely's Cream Balm" and your cold
or catarrh will surely disappear.

WANT ROOSEVELT BACK IN THE FOLD

G. O. P. Leaders Seek Recon-
ciliation With Progressives.

OFFER MANY COMPROMISES.

If Attitude That is Typical of Repub-
lican Party Today Had Been in Force
Two Years Ago Split in Ranks Would
Not Have Occurred—Alfalfa Bill
Murray Makes Unique Comparisons.

By ARTHUR W. DUNN.
Washington, Dec. 23.—[Special.]—
All possible efforts of Republicans who
are looking more to success than any-
thing else will be in the direction of
bringing back the Progressives. That
was the most potent feature of the
meeting of the Republican national
committee. Men who hate Roosevelt
still more, were willing to make any
sort of a compromise that would make
the Progressives return to the Repub-
lican fold. They were coaxing, not
brow beating. They offered compro-
mises that would have prevented a
split had they been put in force two
years ago.

The Roosevelt Problem.
If there is any one who feels au-
thorized to speak for Roosevelt it would
not doubt be a good time for him to
come forward. The real fact about
Roosevelt is that no one can speak for
him. He will make his own declara-
tions. The most devoted friend he has
in the country, the man who has
known him most intimately could not
say what Roosevelt will do in regard
to the proposed amalgamation of the
two wings of the Republican party.

No one believes that Roosevelt has
any understanding whatever with the
Republicans who have put through the
compromises looking to harmony, but
it may be that Roosevelt will look
upon the propositions with favor, for
he might be a successful candidate un-
der the proposed new regulations
which accept state wide primaries and
the reduction of the southern vote in
the convention.

The Same Enigma.
It is certainly queer that Roosevelt
should be the most talked of man at
the meeting of the committee—talked
of, I mean, as the one person upon
whom so much depended. There were
men who said they would never vote
for him; there were men who said he
could not be nominated, and yet all
knew that Republican success in the
future depends to a great extent upon
the attitude which Roosevelt will take
in regard to the new convention plans
and whether he will try to hold the
Progressive party together.

Murray's Comparisons.
Speaking of what farmers ought to
know Alfalfa Bill Murray of Oklaho-
ma said that "they must know that
the same seed would be unsuited for
Minnesota, where the rivers run up
hill and the Irish vote the Republican
ticket, and at the same time for a lo-
cality like South Carolina, where the
rivers run down hill to the sea and the
niggers positively refuse to vote."

Where Frost Penetrates.
During the discussion of the Alaska
railroad bill Congressman Fordney of
Michigan said: "The minority report
on this bill states that a mining com-
pany has penetrated the earth in
Alaska to a depth of 2,200 feet and
finds the ground frozen harder than
the hobs of Jericho. How in the name
of common sense are you going to
raise celery and alfalfa under such
conditions?"

Some one had made the statement
that these products could be profitably
raised in Alaska.

Against Unanimous Consents.
Senator Clapp of Minnesota always
opposes unanimous consent agree-
ments, although he does not object on
the final agreement. He contents him-
self with a protest. After the unani-
mous consent had been granted to vote
on the currency bill there was much
confusion in the senate, which lead
Clapp to say: "This is an example of
the bad effect of such agreements. As
soon as made interest in the bill ceases,
The senator from Oklahoma has been
waiting for six minutes to get a hear-
ing, but has been unable to do so. It
strikes me that this is a good example
of the folly of entering into such ar-
rangements."

Who Goes First?
In these days of Jeffersonian Demo-
cratic simplicity, with the federal ad-
ministration and both branches of the
national legislature under control of
the Democratic party, it does seem
strange that the question of social
precedence should so agitate official
circles. It is a row as to whether the
cabinet or the senate shall take prece-
dence, whether military hostess shall
seat the senator or the cabinet officer
on her right. And they are really
stirred up about it.

Complimenting Williams.
When a senator wants to bluff a fel-
low senator he begins by complimenting
him. "I have listened to many de-
bates in which the senator from Mis-
sissippi has been engaged," began Sen-
ator Weeks one day, "and I believe he
is one of the ablest debaters in con-
gress. He is mentally honest, too, but
he occasionally splits hairs. He is split-
ting hairs now."

And that was the compliment to
John Sharp Williams.

There are almost 1,000 co-operative
societies in British India.

Sharp Remarks.
A man who was offering gratuitous
information at a country fair was dis-
paraging the show of cattle.
"Can't these here prize cattle?" he
scoffingly said. "Why, they ain't worth
in 't to what our folks raised. You may
not think it, but my father raised the
biggest calf of any man round our
parts."

"I can very well believe it," observ-
ed a bystander, surveying him from
head to foot.
It is not every one who enjoys a joke
at his own expense. The judge who
pointed with his cane and exclaimed:
"There is a great regret at the end of
my cane," was intensely enraged when
the man looked hard at him and asked
coolly:

"At which end, your honor?"
A friend of Curran's was bragging
of his attachment to the jury system
and said:
"With trial by jury I have lived, and
by the blessing of God with trial by
jury I will die."

Carved by Nature.
A curious effect of the wear and
tear to which the earth's crust is con-
tinually being subjected is shown
in the Devil's slide in Utah and other
peculiar formations all over the west.
There exist on the South river, in the
Wasatch mountains (a part of the
Rockies), singularly capped pinacles
or slender pillars rising from 40 to 400
feet high and most of them crowned
or capped by huge stones. These pil-
lars are not the work of man, but are
memorial monuments of huge hills
from which they are cut out by the
action of the air and water and the
loose remains of many square miles of
solid rocks which have been washed
away to a depth of some 400 feet.
The greater hardness of the surface
has caused it to resist corrosion more
than the underlying rock, thus leaving
huge caps of stone perched high in the
air on points of their columns. Here
and there can be found a double col-
umn capped by a single stone, thus
forming a natural bridge both unique
and picturesque.—Health.

Chloride of Sodium.
In connection with the name salt a
curious fact is to be noted. Salt was
formerly regarded as a compound re-
sulting from the union of hydrochloric
acid and soda, and hence the generic
term of salt was applied to all sub-
stances produced by the combination
of a base with an acid. Sir Humphry
Davy, however, showed that during their
action on each other both the acid
and the alkali underwent decom-
position and that while water is form-
ed by the union of the oxygen of the
alkali and the hydrogen of the acid,
the sodium of the former combines
with the chlorine of the latter to form
chloride of sodium, and this term is
the scientific designation of salt, which
paradoxical as it may seem, is not a
salt. At one time nearly the whole of
the salt used as food and for industrial
purposes was obtained from the sea,
and in many countries where the cli-
mate is dry and warm and which have
a convenient seaboard a great quantity
of salt is still obtained.

The Political Cabinet.
George I. is said to have been re-
sponsible for the word "cabinet" as it
has long applied to politics in the
United States. When he was king he
could not take part in the delibera-
tions of his own privy council because
he knew no English. British states-
men did not speak German. So the
ministers who served this first of
the Hanoverian sovereigns of Great
Britain used to meet in the king's
private room or cabinet—derived from
the French cabinet or little room—
while he was absent. Afterward they
informed him of the result of their dis-
cussions. It followed naturally that
the part of the privy council which
was supposed to be in particular favor
with the king and especially close to
him came to be spoken of as his cabi-
net council.

Handmade Ragtime.
"Of course," said the salesman, "any-
thing handmade is sure to be superior
to what is made by machinery."
"Not always," answered the musical
person. "If you start up a music box
it generally plays something in the
way of a standard composition. But
when anybody sits down at the piano
and turns out something by hand the
chances are that it will be ragtime."—
Washington Star.

Slight Omission.
"I thought you said he was a man
of means?"
"Excuse me. I left off the ad-
jective."
"What adjective?"
"Limited."—Birmingham Age-Her-
ald.

A Great Art in Little.
"Is there really any art in con-
taining?"
"Of course," always say small things
in a big way and big things in a small
way."—Minneapolis Journal.

PROBLEM
(Continued from Page One.)

board of commissioners that other
matters had held the attention of the
new membership since its induction
into office, but that the infirmity
problem had been one of the most
serious before the board for consid-
eration.

It is a known fact that the commis-
sioners for some time have been con-
sidering ways and means by which the
county infirmity may be made a self-
sustaining institution, and by which
the county farm on which the insti-
tution is situated, near Union Sta-
tion, could be developed for all that
is in it and made profitable to the
county.

Nothing tangible has been reached
in the course of numerous confer-
ences, but the commissioners are
hopeful that continued improvements
from time to time will bring about
desired conditions at an early date.
Judge Hunter added a new sugges-
tion, Tuesday, to his workhouse and
detention home proposal, which it
seems might be acted upon without
excess to the county and at great
benefit to the city.

It was advanced as a reasonable
proposition that habitual offenders
originally sent to the county jail or
to the city prison, be placed under
guard on street work, paying their
debt by improving appearance of
the streets and by working on gen-
eral civic improvements recognized as
essential. This is following out the
practice adopted in many places in
the southern states, where convict
labor on the roads is bringing about
a great improvement in the conditions
of suburban and rural highways.

Distressed Republicans.

The Republican National Committee has been judicious in deciding not to call a special convention next year. It is easier to call a convention than it is to do anything with it after you've got it. A regular convention is slightly restricted by the need of considering the main chance, which is the nomination of a President, but a special convention, with no heavy duty of this sort to chasten its emotions and temper its zeal, would degenerate into a mere gabfest, at which exacerbated feelings would become still further irritated and inflamed, and in which the minority could not be placated by the offer of the second place on the ticket, or held in control by the imperative party necessity of supporting the ticket.

The National Committee however, did not quite have the courage of its convictions. It recognized the danger of a convention. It proposed to change the basis of representation, and thus make the party a Northern and a White Man's party, but it draws back from making its decisions final. It is afraid of the rank and file of the party, and proposes to submit this and some other changes, such as the adoption of State laws, where these affect the choice of delegates, to a referendum of the voters.

This is safer than a convention, because the voters cannot be rounded up in one hall, and roused to frenzy, like an Indian tribe doing a war dance, by the reverberations of its own ululations. But it's going to arouse bitter feeling and animosity among the Republican voters. The more peaceful way of making the change would have been to assume the power of making it final, leaving those who do not like it to swear at an accomplished fact in privacy.

But the change itself is likely to wreck the G. O. P., however it may be accomplished. When the Republican party has confessed itself sectional, and frankly thrown the negro overboard, what will there be left of it? The tariff was getting to be too heavy five years ago, as is shown by the suggestion of tariff revision in the Republican platform of 1904. We see nothing for the Republicans but to dissolve, those who are sane and sane joining the Democratic party, and the irreconcilables nominating whom they please, and quadrennially standing up to be counted.

On Second Thought

Merry Christmas, everybody. There, we've said it first.

Today's gloom should make Thursday's cheer all the brighter. Brace up. What good will it do to grumble about the rain?

When the municipal Christmas tree fund was started the Advocate expressed the hope that the fund would reach \$100. The amount sent to this office alone exceeds \$100. The money will be used to spread Christmas cheer among children.

Instead of sending a present to somebody in anticipation of something in return, send your gifts to those who are likely to be forgotten. Try it once and note the pleasure that will come to you.

Mr. Walter Camp will pick three all-star football teams next year, thus providing a place for every player on the Yale squad. Hitherto, Mr. Camp never has been able to place more than fourteen Yale men on his all-star eleven.

"An original idea," says one of the college papers, "is one the other fellow hasn't heard." Or one the public has forgotten.

Contrary to his wife's belief, the average man doesn't care for young girls and wouldn't marry one if he had an opportunity to do so.

It is the man that attempts to listen to both sides of a question who meets the greatest number of fairs.

There is one exception to the rule that a woman is as old as she looks before breakfast. An actress is from ten to fifteen years younger.

The longest and most leisurely street parade is that given by the man who has caught a string of fish.

Investigation of the causes which led an elderly man to do a foolish thing generally will reveal a second wife under thirty-five years of age.

Buck Kilby says a man of leisure is one who has time to finish a game of three-cushion billiards.

What has become of the old fashioned soda fountain which yielded sarsaparilla?

Christmas Eve Reverie.

(By Mary Ellsworth Fuller.)
As memory comes upon us of the Christmas of long ago.
The faces of our loved ones seem to pass us to and fro.
The happiness and pleasure they brought in days gone by
Make us live our lives all over again,
With a tear drop in our eye.

But what's the use reflecting, well go the same as they.
We're under the command of nature, which makes this old world sway.
So through our short stay here on earth, let's try and make things bright.
All join hands and sing the song: "Make Me a Child Again, Just for Tonight."

Sometimes we ARE not happy. Let's catch a smile along
To brighten up the dark spots in the mortal throng.
What's the use of weeping and cursing our friends to fret.
Brace up. Do the best you can.
We'll see many a Christmas yet.

OLD ESTABLISHED SOCIAL CUSTOM TO BE BROKEN

(Associated Press Telegram)
Washington, Dec. 23.—Breaking of an official social custom that has existed from time immemorial will mark the annual New Year's reception to be given by the heads of the army and navy establishments of the government. For the first time in the history of the United States the officers' families and civilians will be present at the New Year's reception to be given by the Secretary of War and Mrs. Garrison and the Secretary of the Navy and Mrs. Daniels. Heretofore only men have been invited to these receptions. The only injunction laid down, according to a statement issued by Secretary Daniels today, is that officers must appear in uniforms.

WHAT IS IT?

What useful present?
Answer to Monday's puzzle—Candy Cane.

Christmas Recipe.

Make somebody happy today! Each morning that motto repeat, and life that was gloomy and gray, at once becomes pleasant and sweet. No odds what direction you go, whatever the pathway you wend, there's somebody weary of woe, there's somebody sick for a friend; there's somebody needing a guide, some pilgrim who's wandered astray; oh, don't let your help be need — make somebody happy today! There's somebody tired of the strife, the wearisome struggle for bread, borne down by the burden of life, and envying those who are dead; a little encouragement now may drive his dark visions away, and smooth out a seam from his brow—make somebody happy today! There's somebody sick, over there, where sunlight is shut from his room, there's somebody deep in despair, beholding no light in the gloom; there's somebody needing your aid, your solace, wherever you stray; then let not your help be delayed—make somebody happy today. Make somebody happy today, some comfort and sympathy give, and Christmas shall never go away, but always and ever shall live.

Small Percentage of Lives Lost on Steam Vessels

(Associated Press Telegram)
Washington, Dec. 23.—Approximately 700,000 passengers were carried for every life lost on steam vessels in the United States during the past year, according to the annual report of George Uhler, supervising inspector general of the Federal Steamboat Inspection Service. More than 200,000,000 persons were carried on vessels required to report, and of this number 436 lost their lives. Of the lives lost, however, only 210 can be attributed, the report says, to accident, explosion, collision and foundering of vessels, the remainder being suicide, accidental drownings and similar causes.

Think Of The Pride

Your boy or your girl would take in having a savings account with a savings pass book made out in her own name. Think what that book and the additional deposits you could encourage them to make might mean in their future. When you have thought this all over, make one of your gifts to each child a savings pass book in this Association with a first deposit of one dollar

Mary Adaline Binkley.
Mary Adaline Binkley was born Jan. 7, 1862, and departed this life Dec. 7, 1919, aged 57 years, 11 months and 7 days.

God spoke to her, and she fell asleep. I laid a white, fair lily on her heart. And when I saw her face, I could not weep.

It had the peace Death only understands.

And when I knew she would not wake on earth, I laid my heart between her folded hands.

God spoke to her so softly, saying, "Rest."

And when she wakes in heaven she will find.

My life and my heart upon her breast.

Funeral service was conducted by Rev. H. S. Smith, at Fairmount Presbyterian church, Dec. 17, to a large concourse of sorrowing friends.

After Paying Tree Expense Balance Will be Used in Making Children Happy—Have You Helped?

Up to 2 p. m. Tuesday the amount of money in the Advocate's Municipal Christmas Tree fund was \$110.30—more than twice as much as is required to pay the expense of installing the 40-foot tree in the court house park.

The committee meets this evening to pay bills and to arrange for the use of the surplus. The surplus will be used to make a number of children happy on Christmas day.

One prominent firm already represented in the cash subscription has promised to give the Advocate a large assortment of toys and these toys will be distributed where they will do the most good.

It is not even now too late to join in this effort to spread Christmas cheer in Newark. If any one who has not as yet made a contribution desires to do so opportunity still offers. Send the check or cash to the Advocate office as early tomorrow as you can.

MIKE DISTURBED MOVIE PATRONS; WAS LOCKED UP

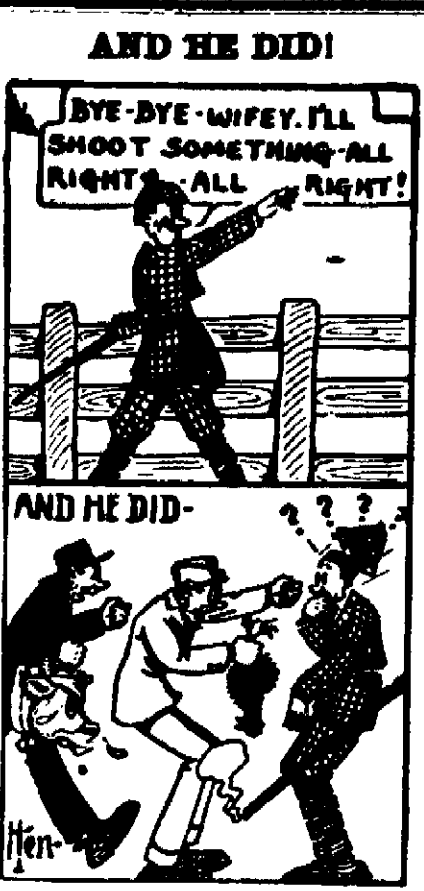

Mike Shefona didn't like it when he was asked to allow some one to pass in front of him in a movie show Sunday night and his displeasure was evidenced by a copious flow of choice "cuss" words, all of which landed him before the bar of justice. His advance cost him \$9.05. The five cents was the price of his admission to the picture show, and the \$9 was the toll exacted by the law for "cussing" promiscuously. Spectators in the show declared that Mike "cussed" vehemently and started for the door. Every few steps, some indignant man on behalf of his woman companion, administered a blow on some part of Mike's anatomy, and by the time he reached the street he was pretty well pummeled. Attaches of the theater took charge of the man and turned him over to an officer.

Jews Celebrate Chanukah, or Feast of Dedication

With the setting of the sun tonight the Jews of this city, in common with those of their race throughout the world, will begin the celebration of Chanukah, or the Feast of the Dedication of the Temple. The festival period will continue eight days, and it will be a period of rejoicing for the Hebrew people, since a liberal remembrance of the unfortunates is a feature of observance. Gifts are also distributed among the children, and in this respect the festival is somewhat akin to Christmas.

Chanukah commemorates the rededication of the temple at Jerusalem in the year 165 B. C. The sacred edifice had been polluted by Antiochus Epiphanes, who had set up a shrine to his pagan deity in the place of the altar of Jehovah. Judas Maccabeus, one of the great martial heroes of the Jews, avenged the destruction, and on the twenty-fifth day of the month Kislev he rededicated the temple to the service of God. At that time the high priest searched for some oil that had not been polluted by the pagans, but found only a small quantity, sufficient only to last one day. This oil, by a miracle, renewed itself and lasted for eight days, and ever since Chanukah has been celebrated for eight days. One candle will be lighted tonight, three candles on the second night, three candles on the third night, and so on.

"White man's medicine" proved more powerful than that of the redskins in the battle of Econochaca, which was fought just a century ago today, Dec. 23, 1832. Gen. Claiborne, one of the American officers charged with the suppression of the Indian uprising, appeared before Econochaca, or "Holy Ground," a village built by the half-breed chief, Weathersford, on the morning of the day of battle. The town was on the left bank of the Alabama River, and was almost surrounded by ravines and swamps. Besides these natural protections, the redskins believed that the place was defended by the Great Spirit, and that no paleface could tread upon the ground and live. Their faith had been somewhat shattered, however, by the recent destruction of Auttose, which was also a "sacred town." Econochaca had been dedicated as a place of refuge for the wounded Indians and the women and children of the warring tribes. Tecumseh and the Prophet presiding at the dedication ceremony. The square in the town was the scene of the Indian incantations and their horrible human sacrifices. White prisoners and Indians friendly to the palefaces had there been tortured and roasted. When Claiborne appeared before the town, with his army of whites and friendly Choctaws, he found the square filled with people, preparing for the sacrifice of a number of Indians and half-breeds who had manifested friendship for the whites. These unfortunates were tied to posts, and surrounded by pine wood, ready to be lighted to consume them. The Tennesseans and their Choctaw allies charged just in time to save the proposed victims. The redskins fled at the first alarm, and most of them escaped by swimming or in canoes. Chief Weathersford's flight was dramatic. In vain he rallied his warriors, and when he found himself deserted, he mounted his horse and, hotly pursued, fled to a bluff on the river. He drove the horse over the precipice, and animal and rider disappeared under the water. In a moment they reappeared, and Weathersford, grasping the mane of his charger with one hand and his rifle with the other, hurled curses of defiance at his pursuers. He escaped in safety. The Choctaws plundered Econochaca and

then laid it in ashes. Weathersford was the son of a white peddler and a Creek woman. At the massacre of Fort Mims, which he led, he sought to prevent the massacre of the women and children, but could not restrain his ferocious warriors.

CAN'T WRITE BUT DOES TIME FOR FORGERY

(Associated Press Telegram) Columbus, O., Dec. 23.—Although he can neither read nor write, Jerry Norman was received at the Ohio Penitentiary yesterday to serve a sentence of one year for forgery. Norman was tried and convicted of the crime in Dayton several months ago, but he was released on probation. Reports were received at the state prison to the effect that Norman was again practicing the art of forgery, but Record Clerk Bishop was inclined to doubt the stories, knowing Norman's shortcomings. Probation Officer Rarey was sent to investigate and found that the reports against Norman were true. The prisoner used a rubber stamp to affix signatures.

GOOD ROADS TO BE SUBJECT OF O. S. U. TALKS

(Associated Press Telegram) Columbus, O., Dec. 23.—Another movement to make the state university practically useful to the state government was the subject of a conference between Governor Cox and Professor F. H. Eno of Ohio State University. A two weeks course of lectures and discussion on the subject of good roads will be conducted by the civil engineering department of the University, February 16 to 28 and special efforts are being made to have all county commissioners of the state attend.

Governor Cox today expressed his gratification at the way the course will be conducted. Experienced road makers and experimenters from all parts of the country will be speakers in the lecture course. Among these are A. N. Johnson, chief engineer of the state highway department of Illinois, and A. D. Williams, who occupies the same position in Indiana. Professor A. H. Blanchard of the good roads department of Columbus University; Professor F. L. Smith of the University of Wisconsin; and Provost Hubbard, formerly connected with the good roads department of the federal government at Washington.

A new feature of the course this year will be the use of moving pictures to show how roads should be constructed and rolled. An asphalt company has agreed to use moving pictures in depicting every step in the production of asphalt from the time it is taken at Trinidad, to the time when horse and automobile vehicles roll over the surface of a finished street.

A fee of \$2 will be charged those entering the two weeks course.

FACE COVERED WITH PIMPLES

Suffered Three Years. Used Resinol. Now Not A Pimple To Be Seen.

Philadelphia, Pa., Oct. 27, 1932. "I had been troubled for the past three years with pimples which completely covered my face and neck. The pimples would come out, fester up and cause me to pick at them, feeling very uncomfortable. I tried most all kinds of facial creams, but with no effect. I tried a sample of Resinol Soap and Ointment and noticed instant relief. I bought Resinol Soap and Resinol Ointment, and began the treatment. After using two jars of Resinol Ointment and Resinol Soap, there was not a pimple to be seen, and now my face is as smooth as if there was never a pimple on it." (Signed) Albert Greenburg, 4167 Frankford Ave.

For eighteen years Resinol has been a favorite doctor's prescription and household remedy for itching troubles, skin eruptions, dandruff, red, rough faces and hands, scabs, piles, etc. Stops itching instantly. Sold by all druggists. Resinol Soap, 25c.; Ointment, 50c. and \$1.00, but you can try them without cost—just write for liberal samples to Dept. 18-M, Resinol Chemical Co., Baltimore, Md.

REPRIMAND IS DEMANDED BY PRES. WILSON

(ASSOCIATED PRESS TELEGRAM)
Washington, Dec. 23.—President Wilson has made public a letter addressed to Secretaries Garrison and Daniels, respectively, requesting that a "very serious reprimand" be administered to those army and navy officers who participated in the recent dinner of the Military Order of the Carabao at which the administration's Philippine and other policies were criticized. The letter reads:

"The officers who were responsible for the program of the evening are certainly deserving of a very serious reprimand, which I hereby request be administered. And I cannot rid myself of a feeling of great disappointment that the general body of officers assembled at the dinner should have greeted the carrying out of such a program with apparent indifference to the fact that it violated some of the most sacred traditions of the United States."

"I am told that songs and other amusements of the evening were intended and regarded as 'funny.' What are we to think of officers of the army and navy of the United States who think it 'fun' to bring their official superiors into ridicule and the government which they are sworn to serve with unquestionable loyalty into contempt? If this is their idea of fun what is their idea of duty? If they do not hold their loyalty above all silly effervescence of childish wit, what about their profession they hold sacred."

"My purpose, therefore, in administering this reprimand is to recall the men who are responsible for this lowering of standards to their ideals; to remind them of the high conscience with which they ought to put duty above personal indulgence and to think of themselves as responsible men and trusted soldiers, even while they are amusing themselves as diners out. Sincerely yours,
"WOODROW WILSON."

YOUR HAIR MAY BE YOUR FORTUNE

Beautiful hair has made the fortune of many a woman, by adding charm and loveliness to an otherwise plain face. Nothing means more to good looks than beautiful hair. It adds to the attractiveness of every feature. Without it you can't be beautiful; with it you will be at least pretty.

To have beautiful hair, use Harmony Hair Beautifier. It will improve the beauty of your hair, taking away the dull harshness and stringiness, softening and polishing every hair in your head and making it soft, silky, glossy, easier to put up and keep in place, and at the same time giving it a rich and lasting rose fragrance that will delight both you and those around you.

Very easy to apply—simply sprinkle a little on your hair each time before brushing it. It contains no oil, and will not change the color of the hair, nor darken gray hair.

To keep your hair and scalp dandruff-free and clean, use Harmony Shampoo. This pure liquid shampoo gives an instantaneous rich lather that immediately penetrates to every part of hair and scalp, insuring a quick and thorough cleansing. Washed off just as quickly, the entire operation takes only a few moments.

Both preparations come in odd-shaped, very ornamental bottles, with sprinkler tops. Harmony Hair Beautifier, \$1.00, Harmony Shampoo, 50c. Both guaranteed to satisfy you in every way, or your money back. Sold in this community only at our store—The Rexall Store—one of the more than 7000 leading drug stores of the United States, Canada and Great Britain, which own the big Harmony laboratories in Boston, where the many celebrated Harmony Perfumes and Toilet Preparations are made. Human Procession

Oscar Solomon Straus, youngest of the three distinguished Straus brothers, was born in Rhenish Bavaria sixty-three years ago today. While his father and brothers achieved fame and fortune as merchants and the pioneers in the development of the department store idea, Oscar upheld the honors of the family in the domains of diplomacy and politics. When their three sons were born, Lazarus and Sara Straus lived in a little Bavarian town on the Rhine. Isidor, the merchant prince who was lost in the wreck of the Titanic, and whose devoted wife chose death with him rather than separation, was the eldest. Nathan, who recently retired from active business to devote the remainder of his life to the many humanitarian interests which he has founded, was the second son, and Oscar the third. The latter was in his third year when the family emigrated to America and settled in the little hamlet of Talbotton, Ga. The future ambassador was a typical barefooted country lad, and at the age of ten he guided a plow through the fields. Mrs. Straus was an enthusiast on the subject of gardening, and introduced asparagus and several other vegetables to the attention of Georgians. Lazarus Straus was a well educated man, learned in Biblical lore, and a Jew of liberal religious tendencies. Oscar attended a Baptist Sunday school. When the civil war broke out Isidor, the eldest of the Straus boys, sought to enter the Confederate army, but was refused on account of his youth. Later he went to Europe to assist in the purchase of ships and supplies for the Southern government. Oscar, with the rest of the family, went to Columbus, Ga., in 1863, remaining there until the close of the war. Lazarus Straus lost nearly all he possessed by reason of the war, and in 1865 had barely enough to pay his debts and remove with his family to New York. There Oscar entered Columbia University, while Lazarus Straus and his two elder sons started business in a small way as importers of pottery and glassware. The business flourished, and in 1874 L. Straus & Sons made arrangements with R. H. Macy, a dry goods merchant, to install in the basement of the Macy store a department for china, crockery and glassware. This was the first step toward a department store, an idea later developed by Nathan and Isidor Straus in their great department stores in New York and Brooklyn.

Oscar Straus chose the law as his profession, and built up a flourishing practice. He showed his public spirit when he took part in the movement for the passage of the interstate commerce law. It is declared that his activity against the railroads reduced this income from legal practice to less than \$10,000 a year, when it had previously been \$100,000. He served without pay as counsel before the Hepburn committee hearings. After some years in business with his brothers, he was made minister to Turkey, serving in that position during two administrations, and more recently as ambassador to Constantinople. In 1904 he was Secretary of Commerce and Labor in the cabinet of President Roosevelt, remaining in Washington until 1906. Last year Mr. Straus was the Progressive nominee for Governor of New York.

During his college days, Mr. Straus was for a few weeks a reporter on the New York Sun, and he is the oldest living Sun alumnus. Like his brothers and his father, Mr. Straus has always been interested in movements for improving the condition of the poor. Not long ago he visited England to study the working of the co-operating stores and the cooperative suburban homes which are under the patronage of

WOMAN THE CAUSE OF TEXAS TRAGEDY

(ASSOCIATED PRESS TELEGRAM)
Los Angeles, Calif., Dec. 23.—Daniel De Villiers of San Antonio, Texas, was shot and killed here by Roy H. Glover, a wealthy land agent, who came here two months ago with the mother of De Villiers' two children. The shooting occurred in the doorway of the Glover home here. De Villiers called in an effort to see his former wife, Glover, who is in jail, charged with murder, says he shot in self defense.

The tragedy revolved about the woman in the case, who was known as Mrs. Glover, but who is said to have declared not his wife.

De Villiers is said to be a prominent man on the Boer side during the South African war.

First Things

The first meeting of what became the Woman's Christian Temperance Union was held in Hillsboro, Ohio, forty years ago today, December 23, 1873. A prayer meeting was held by the women in the morning, from which went forth "praying bands" to the saloons, where they prayed, sang hymns and read from the Bible, after which they returned to church and resumed the prayer meeting. In some instances the liquor dealers agreed to quit business, and invited the women to break their bottles and barrels. The newspapers gave large space to this crusade, and in the same month the first local W. C. T. U. was founded in Fredonia, New York. The first State union was organized in Ohio the following year, and in November, 1874, a convention at Cleveland, Ohio, organized the Woman's Christian Temperance Union. Eighteen states were represented in the movement which has since become world-wide.

AN OLD RECIPE TO DARKEN HAIR

Common Garden Sage and Sulphur
Makes Scratched, Faded or Gray
Hair Dark and Glossy At Once.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Hair Remedy." You will get a large bottle for about 50 cents. Everybody uses this old, famous recipe, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger. SMALL POX IN CREW OF U. S. FIGHTER

Charleston, S. C., Dec. 23.—Two new cases of small pox developed on the battleship Ohio on her way here from Guantanamo. All the crew were vaccinated on December 16 and only four more days remain within the period of incubation. As the local quarantine station lacks facilities for handling the men ashore the ship may be ordered to another port for fumigation.

If the water-borne foreign trade of the United States were per capita equal to that of Great Britain, it would amount to \$14,000,000 per annum.

Make This and Try It for Coughs

This Home-Made Remedy has no Equal for Prompt Results.

Mix one pint of granulated sugar with 1/2 pint of warm water, and stir for 2 minutes. Put 2 1/2 ounces of Pinex (fifty cents worth) in a pint bottle; then add the Sugar Syrup. Take a teaspoonful every one, two or three hours.

This simple remedy takes hold of a cough more quickly than anything else you ever used. It stays in the lungs an ordinary cough inside of 24 hours. Splendid, too, for whooping cough, spasmodic croup and bronchitis. It stimulates the appetite and is slightly laxative, which helps end a cough.

This makes more and better cough syrup than you could buy ready made for \$2.50. It keeps perfectly and tastes pleasant.

Pinex is a most valuable concentrated compound of Norway white pine extract, and is rich in quaiacol and other natural pine elements which are so healing to the membranes. Other preparations will not work in this plan.

Making cough syrup with Pinex and sugar syrup or strained honey has proven so popular throughout the United States and Canada that it is often imitated. But the old, successful mixture has never been equalled.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. Your druggist has Pinex or will get it for you. If not, send to The Pinex Co., St. Wayne, Ind.

DENISON HAD THE STATE CHAMPIONSHIP BASKETBALL TEAM

Denison's state championship basketball team of last year is accorded considerable space in the last issue of Spaulding's Basketball Guide. The article was written by L. W. St. John, erstwhile athletic director of Ohio Wesleyan, but now of Ohio State.

All of the regular team are recognized by St. John as possessing exceptional ability. Two men are placed on the first choice for an all-Ohio team, one on the second and two on the third, which certainly speaks well for the team.

Black and Rupp are placed on the first team. Black received special mention, being considered as the best forward in the State without any doubt whatever. Prouty, who is captain this year, was placed at center on the second team and well deserved the distinction as it was hard to choose between Higgins of Wesleyan and Prouty for the position.

On the third team Denison was recognized by Jones and Reese. Jones played a fine game at forward last season and Reese was a strong guard.

All of last year's team will be on the job this year with the exception of Rupp, whose position will be taken by Thiele, who is displaying all Ohio ability at present.

ENGLISH WALNUTS ARE CONDEMNED BY INSPECTOR GEAR

Associated Press Telegram—Cleveland, Dec. 22.—English walnut stockpiles belonging to a local commission merchant were condemned here today by State Food Inspector W. C. Gear. They were wormy and rancid, and the inspector declared their date was 1912. Year-old walnuts are out of date, the food inspection department has ruled, and their sale to unsuspecting Christmas shoppers is prohibited under penalty of \$50 fine.

Mrs. Clara Louise, who has been taking a kindergarten course in Toledo and Miss Ella Howe of Columbus will arrive Wednesday to visit their parents, Mr. and Mrs. Howard Howe.

GOVERNMENT WILL ESTABLISH FOUR TRAINING CAMPS

The national government expects to establish four training camps for the summer of 1923. One camp will be located at Gettysburg, Pa., and the other at Monticello, Va. The success of these camps last year was so promising that the idea was continued next summer. Four camps will be maintained next summer, one at each of the four corners of the United States. The actual expense of the camps will be the cost of transportation and food. All other equipment will be provided by the government.

THREE INJURED WHEN COACHES JUMPED TRACK

Baltimore, Md., Dec. 22.—Two well-known coaches of Maryland and Pennsylvania football teams jumped the track and badly injured three of their passengers, while all were violently shaken up. John A. Johnson, national revenue collector for the Maryland district, was cut in the forehead and knocked unconscious.

GREAT DRY DOCK TO BE COMPLETED BY CONTRACTORS

Associated Press Telegram—Washington, Dec. 23.—Whether private contractors are to be held responsible to complete the government's \$2,400,000 dry dock at Pearl Harbor is a question Secretary Daniels has called upon Attorney General McReynolds to decide. The attorney general's opinion is expected to hold the contractors must go ahead with the work. The upheaval of the bottom of the great dock, was the naval tragedy of the year. The dock, designed to be a triumph of naval engineering, was to be a thousand feet long and so arranged that it could be divided into sections for the docking of vessels of any displacement, accommodating small craft without flooding the entire dock.

The cause of the upheaval was the subject of an exhaustive report by an engineer expert who decided that despite the obstacle to be overcome the great task could be completed. That brought the navy department face to face with the problem of who should stand the loss and Secretary Daniels referred the question to the department of justice.

Woman Assaulted By Murderous Thugs

Associated Press Telegram—Cleveland, Dec. 22.—A murderous assault upon a woman was today added to the series of crimes which has aroused the city for the past two weeks. Mrs. Ella Santag, 25, was found bound and gagged lying insensible upon her kitchen floor by a neighbor. After medical attention had been summoned and she had regained consciousness, she said four men entered the house, kicked and beat her until she gave them money, after which they let her up. Mrs. Santag's injuries are serious.

SEARCH FOR WOMAN'S BODY

Associated Press Telegram—Cleveland, Dec. 23.—Life-savers today were searching the lake front for several miles for Mrs. Anna Barry, missing since Sunday evening from her home here. Her friends fear she may have fallen from one of the high cliffs along the lake and been drowned while in a temporary state of mental aberration.

Necessity was the Mother of the Remington

WHEN the need of the typewriter came to the business world, the Remington came. Others followed. Remington was the first typewriter—it is still the first typewriter.

First in the field, the Remington organization began building experience, step by step, from the actual practice of typewriter users—always a step or two in advance of the users' need. Other makes followed.

Today the Remington Typewriter stands unique as the greatest revolutionizer, the greatest energizer the commercial world has ever seen. And by no means least of its beneficiaries are all other makes of typewriters—for the Remington created the typewriter industry and

blazed the way—for the others to follow.

12,500,000 Remington-written letters mailed in the United States alone every business day in the year.

That tells the story of Remington pre-eminence, of the confidence of captains of commerce in it, of the faith of tens of thousands of efficient employees, of the limitless selection in choice of operators and choice of positions—the machine that has made work for the millions, and millions for the work.

Remington—the first Typewriter.

What So Precious
As a Healthy Baby

Every Youngster Can Have Fine
Digestion if Given a Good Baby
Laxative.

In spite of the greatest personal
care and the most intelligent atten-
tion to diet, babies and children will
become constipated, and it is a fact
that constipation and indigestion have
wrecked many a young life. To start
with a good digestive apparatus is to
start life without handicap.

But, as we cannot all have perfect
working bowels, we must do the next
best thing and acquire them, or train
them to become healthy. This can be
done by the use of a laxative-remedy
very highly recommended by a great
many mothers. The remedy is called
Dr. Caldwell's Syrup Pepsin and has
been on the market for two genera-
tions. It can be bought conveniently
at any drug store for fifty cents or
one dollar a bottle, and those who are
already convinced of its merits buy
the dollar size.

Its mildness makes it the ideal
medicine for children, and it is also
very pleasant to the taste. It is sure
in its effect, and genuinely harm-
less. Very little of it is required and
its frequent use does not cause it to
lose its effect, as is the case with so
many other remedies.

Thousands can testify to its merits
in constipation, indigestion, bilious-
ness, sick headaches, etc., among them
reliable people like Mrs. James H.
Rouse of Marinette, Wis. Her little
son Howard was fifteen months old

HOWARD ROUSE.

last April, but he was sick with
bowel trouble from birth and suffered
intensely. Since Mrs. Rouse has been
giving him Dr. Caldwell's Syrup Pepsin
all his trouble has disappeared and
the boy is becoming robust.

Thousands keep Dr. Caldwell's
Syrup Pepsin constantly in the house,
for every member of the family can
use it from infancy to old age. The
users of Syrup have learned to avoid
cathartics, salts, mineral waters, pills
and other harsh remedies for they do
but temporary good and are a shock
to any delicate system.

Families wishing to try a free sam-
ple bottle can obtain it postpaid by
addressing Dr. W. L. Caldwell, 419
Washington street, Monticello, Ill. A
postal card with your name and ad-
dress on it will do.

NEW ZEALAND IS
FIRST TO CELEBRATE

1914 Will Arrive There Hours
Before It Reaches U. S.

THE birth of a new year, as we
are all aware, is variously cel-
ebrated, but how many people
know the manner in which
that momentous date is set? Do you
know that the new year is really hours
old before the bulk of the civilized
world is able to celebrate it?

Priority in rejoicing over the event
is actually given to the untutored in-
habitants of the islands of the south
Pacific. The first of the civilized world
that will greet 1914 will be the people
of faraway New Zealand. Sweeping
westward, the change of date crosses
Asia and then the old world of Europe
and Africa before starting over the
Atlantic to America. Onward it speeds
at the rate of a thousand miles an
hour until the first day of the new
year dies away in the middle of the
Pacific.

In the United States the idea of an-
nouncing broadcast over the land the
birth of the new year originated with
the officers in charge of the Naval ob-
servatory in Washington. Ten years
ago it was suggested that the tele-
graph companies dispatch at midnight
from Washington a series of signals
proclaiming the exact moment of the
new year's beginning. The idea was
taken up, and signals were sent out at
midnight and at 1, 2 and 3 o'clock in
the morning following in order that
each great time division of the United
States should receive its own appropri-
ate midnight signal from the nation's
capital.

Since the beginning of this service
other telegraph and most of the cable
companies have lent their co-operation,
and signals are now sent covering both
North and South America, all our col-
onial possessions, Australia, Japan and
the principal nations of Europe. Some
idea of the speed with which these
New Year greetings are flashed from
Washington to distant points can be
gathered from the fact that it takes
less than four-tenths of a second to
reach the Manila observatory, five-
tenths of a second to reach Lick ob-
servatory, California; 2.25 seconds to
cover the distance between Wash-
ington and the coast survey station in
Alaska (this includes relaying) and
four seconds to let the Wellington ob-
servatory in New Zealand know that
the new year has reached us after the
celebration there has been hours old
and folks are in bed.

PRETTY WATCH PARTY.

Suggestions For Novel Entertainment
For New Year's Eve.

In order to give an appropriate party
on New Year's day send out invita-
tions for a "watch night" party or "re-
membrance" party. If you can sketch
draw an hourglass, a Father Time or
a clock face with the hands at mid-
night or the last leaf on the calendar
with Dec. 31 done in scarlet. Ask each
one to tell of the happiest day in the
year that is past and in what month it
happened. You may play cards, dance
or "reminiscence," just as suits you
best.

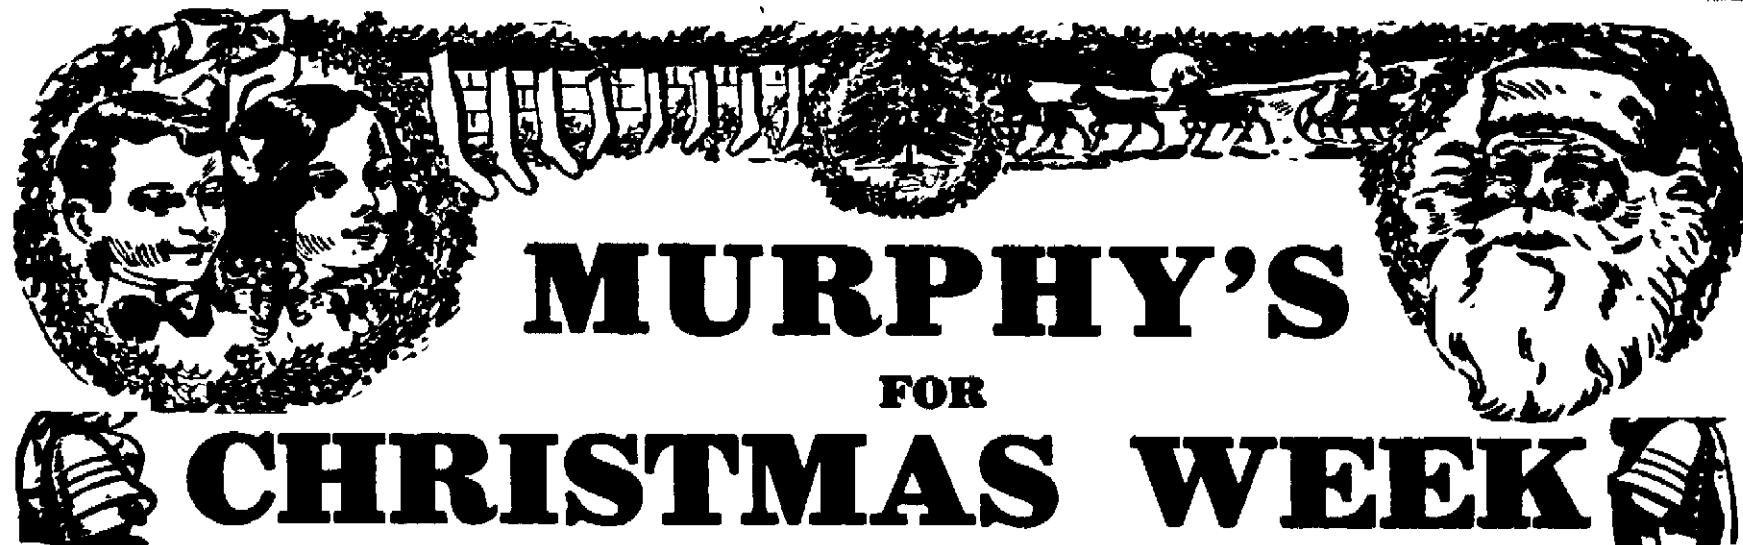

Have a cake with twelve candles,
surrounded by a wreath of holly and
mistletoe and the favors symbolic of
the year's special days—for instance,
a calendar for January, a Cupid or
heart for February, a kite for March,
a tiny umbrella for April, a posy or
bouquet or artificial flowers or a wee
May pole for May, a doll bride or a
basket of roses for June, a firecracker
for July, a golf set or picnic basket
for August, a bunch of grapes or a tiny
washtub for September, the latter sig-
nifying Labor day. Represent Octo-
ber with a wee jack lantern cut from
an orange, a pumpkin or football for
November, or a turkey, and for De-
cember a miniature Christmas tree.
These articles could be procured in du-
plicate and be used to find partners,
or they may be placed in a Jack
Horner pie made to represent the face
of a clock, red ribbons going to each
plate.

Fortune nuts may be made by tak-
ing perfect English walnuts and re-
moving the meats, inserting a narrow
strip of paper bearing a pleasant
prophecy for the coming season and
then gluing the shells closely togeth-
er. These may be gilded and passed
at the table. A wise hostess who
knows her guests well will be clever
in making these forecasts just right.

FATHER TIME AT
NEW YEAR'S PARTY.

A long time ago it used to be the
custom to open the door a few minutes
before midnight to allow the old year
to make his exit and the new year his
entrance. If you wish to add a dra-
matic finish to your party on New
Year's eve have some one impersonate
Father Time, keep it secret and have
him enter and shake hands regretfully
with each one. He must wear a long
white beard, carry a scythe and hour-
glass and have on black satin breech-
es, silk hose and slippers—in fact, a Revo-
lutionary costume is good to copy. As
the hour strikes he waves a solemn
forewell and as the stroke finishes the
white and gold glad new year enters,
with garlands and favors for each
which are smilingly bestowed amid the
cries of "Happy New Year!" All will
circle round, singing "Auld Lane
Syne."

BOYS DID NOT
INTEND HARM
TO PLAYMATE

Investigation of the locking up of
little Homer Swan, aged six, of
Bowers avenue, in a neighbor's
coal shed by older playmates devel-
ops the fact that the boys were all
playing policeman and the little fel-
low was made prisoner and placed in
their "city calaboose" where he
was kept for a short time. In jus-
tice to the boys it seems that the
matter was slightly exaggerated and
that no harm was intended.

XMAS SERVICES IN
TRINITY CHURCH

Trinity church will begin its ob-
servance of the Christmas season with
services on Christmas Day. There will
be a celebration of the Holy Commu-
nion at 7:30 a. m. The second ser-
vice will begin promptly at 10 a. m.,
with the singing of the Adeste Fideles
in procession, followed by a festival
Te Deum. The service of the Holy
Eucharist follows, the choral parts
being from The Communion Service
of Battison Haynes. The glorious
Hymn of Peace by C. Whitney
Combs will be sung at the offertory.
On the Sunday following Christmas,
the choir will sing Christmas Carols
at the 5 o'clock Vesper service. The
children's Christmas Tree exercises
and Carol service will be on Monday
evening, December 29, beginning at
5:30.

MAY CALL PREXY
"SNOOKUMS," IS
COURT'S RULING

(ASSOCIATED PRESS TELEGRAM)
Moran, Kans., Dec. 23.—For a
high school girl to call the principal
"daddy" and "snookums" and to re-
fer to her history instructor as
"pete" is contemptuous, but the
school board is the court of last re-
sort in such a case and its acts are
not subject to judicial review, ac-
cording to a decision rendered here
today by Judge Foust, in the district
court dismissing a suit brought to
enjoin the school board from sus-
pending Miss Vivian Varner from
attending the Moran high school.
Testimony was given to show that
Miss Varner had referred to Prin-
cipal Wright and to one of the teach-
ers with the appellations Judge
Foust finds contemptuous. Miss
Varner was suspended and her father
appealed to the court. His at-
torneys contended that Miss Varner's
acts were merely those of a girl full
of life and vivacity and were not in-
tended to be disrespectful. Judge
Foust ruled that it was not in the
power of a court to interfere with
the actions of a school board unless
they were shown to be actuated by
malice.

GEO. S. GRABER
TO BE SPEAKER AT
MEN'S MEETING

The Sunday afternoon meeting
under the auspices of the Christian
Men's Union will be held at the East
Main Street M. E. church at 3:30
o'clock. George S. Graber of Colum-
bus will be the speaker. Mr. Graber
is an effective speaker and has had
great success in winning men at
his meetings. It is said that he has
the eloquence and power of a
John E. Goff. Mr. Graber was con-
verted to Jesus Christ only a few
years ago and now freely tells of the
great light that has come into his
life. The Union has departed from
its usual order in its meeting by in-
viting the ladies to be present. The
men will occupy the main body of
the auditorium and the ladies in the
rear and in the balcony. Everybody
in the city is invited. Mr. Graber
brings with him from Columbus an
evangelistic singer who will assist in
the services.

Orpheum Theater.
The Orpheum theater offers an ex-
ceptionally good bill for the first
half of this week. Fred Lasere, the
aerial artist, and his dog are very
good. Emerald and Deary, the
celebrated Italian opera singers, are
one of the great features of the bill.
Madame Deary has a beautiful, sweet
and clear voice and is accompanied
with the violin by Mr. Emerald, who
shows great ability as a violinist as
well as a singer. Their act closes
with a duet from grand opera. Elbert
Mitchell, the musical black face
comedian, is a great laugh. His
jokes are all new. Mr. Mitchell
plays the guitar and sings the latest
coon songs. The last act is a great
comedy sketch presented by A. Ald-
ridge. It shows a hubby of one
short year who stays out all night
with the boys, for the first time.
Upon his arrival home at 5 a. m.
in the morning he attempts to "fix
things up" with wife, but with his
famous "just like a man" stories the
plot deepens. Finally he is trapped
and after promising never to re-
peat the offense, he is forgiven.
For the last half of the week the
Original Happy Youngsters, featur-
ing Miss Georgie Kerns, the popular
young Newark lady and Sam West-
on, the world's champion dancer,
Manager Evans witnessed this show
in Marion and says it's great. There
will be two matinees on Christmas
day and also two on Saturday.

A two days' session of the Farmers' Institute of Vanatta will be held Dec. 31 and Jan. 1, according to programs just issued. The institute opens Wednesday at 8 a. m. and the closing session will be held Thursday afternoon.

Among the speakers who will address the meetings are J. F. Gordon, O. A. Dobbins, Rev. F. Gilliam, Laura R. Heidinger, J. H. Clark and P. F. Kooniz.

Orchestra music, male quartet music, recitations and essays are included in the program besides the subjects on agricultural matters which will be discussed by other speakers.

SMOKE AND CINDER NUISANCE WILL BE ELIMINATED

(ASSOCIATED PRESS TELEGRAM)
New York, Dec. 23.—After nearly three years of experimentation a log manufacturing company has perfected, it is claimed, an apparatus which practically eliminates the smoke and cinder nuisance. The smoke coming from these fires which heat the huge boilers, laden with cinders, is driven at high speed through a sheet of water. By this process practically all of the material which constituted a nuisance is deposited in a big water tank.

The water cleaning apparatus has been attached to seventy-one of the boilers in the manufacturing plant here and it is estimated that the equipment reduces the amount of material discharged by the boilers by 75 percent.

Since the apparatus has been in operation it was explained today, the complaints about the smoke nuisance in that part of the city where the plant is located have been few. It was said that the treatment does not cleanse the smoke completely or remove all of its color, but it does remove all materials which would soil the streets or have any harmful effect.

REPUBLIC TRUSTEES TO ANSWER KICKERS

(ASSOCIATED PRESS TELEGRAM)
New York, Dec. 23.—Trustees of the George Junior Republic Association have appointed a committee to reply to the recommendations of the state board of charities, adopted recently urging that William R. George, founder of the Republic at Freeville, N. Y., be removed from all further participation in the republic's affairs. The committee was instructed to have its reply ready for action by the trustees tomorrow. No announcement was made as to whether the trustees favor the removal of George.

Cotton Consumption Largest in History

(ASSOCIATED PRESS TELEGRAM)
Washington, Dec. 23.—The mill consumption of cotton in the United States for 1913 was the largest in the history of the country and the statute of cotton goods domestic manufactures exported was greater than for any previous year, the census bureau reported today in announcing statistics showing the supply and distribution of cotton for the cotton year.

With a supply of 18,225,734 running bales, the domestic consumption was 5,526,329 bales, or 30.3 percent; the exports 5,500,968, or 30.2 percent, and stocks remaining at the close of the cotton year were 1,598,435 bales, or 8.9 percent. The mill consumption exceeded that of 1912, the previous largest year by 418,747 bales, and the exports were 1,500,792 bales less than 1912. Stocks on hand August 31 represented about seven weeks' supply for the American mills.

XMAS BONUSES TO BE DISTRIBUTED AMONG EMPLOYEES

(ASSOCIATED PRESS TELEGRAM)
New York, Dec. 23.—The note of pessimism in the holiday sentiment in Wall street which was in evidence a week ago, has disappeared, and now is said that employees will be paid by brokers and bankers generally. Saturday's sudden reversal in the course of prices as a result of the passage of the currency bill through the senate and the peaceful solution

of the American Telephone and Telegraph matter all with its promise of an old fashioned bull movement, banished the pessimism.

Paying of Christmas bonuses by the big banks has already begun. One bank, with many branches throughout the city, started the ball rolling by distributing \$25,000 among its employees.

Paint and oil purchases by the Government for the present year show a decrease of 10 per cent in cost, as compared with those of last year.

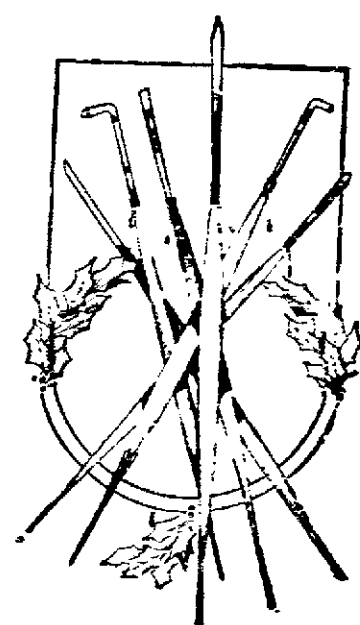

WILL PRESENT CHILDREN WITH GIFT OF \$1,000,000

San Antonio, Texas, Dec. 23.—Children of William Maverick, head of a family long prominent in Texas history, will have a reunion here Christmas day, when Maverick will give to them more than \$1,000,000 in income-bearing property. He will keep for himself, according to the announcement of friends, just enough to maintain him in comfortable circumstances for the remainder of his life.

In the range of style handles, there are many beautiful ones, from the plain handles to sterling silver mounted ones. The covers range from the pure silk to the desirable unions. All guaranteed absolutely rainproof.

They are just right open, they are large, just right closed, small; they have double strength frames, will not turn inside out—umbrellas with a big spread. They have more style, more strength, more protection and less breakage. They are just the kind of umbrellas to give for a Xmas present.

MEN'S AND WOMEN'S UMBRELLAS—Special values at \$1, \$1.25, \$1.50, \$1.95 and \$2.45
